

Managed Care Consultants, Inc. is able to accept claims electronically. In maintaining our lead with developing technologies, MCC has implemented this method to ease the workload of our providers and their billing companies as well as expediting the processing and payment of claims. This service is called MCC Direct.

We provide our clients services they need, create an integrated delivery system making those services easy to access and use, while continuing to seek out better and more efficient solutions. That's why we developed MCC Direct. Processing claims electronically has exceptional benefits for both the provider and your company.

- Data Entry is More Accurate
- Turn Around Time is Greatly Reduced
- Less Opportunity for Claims to be Misdirected or Lost
- HIPAA Compliant

Managed Care Consultants is in the process of implementing the mandatory HIPAA guidelines for electronic claims processing. The goal of a paperless system is one that the provider community and we are aiming to achieve. Our progress can be tracked in future Network News articles which are available on-line at www.mccnevada.com.

MCC is one of the first managed care companies in Nevada to begin processing claims electronically. Currently, we are able to accept claims in the HCFA 1500 form and only claims paid by MCC. You can submit your claims directly in the following forms ECSIF or NSF.
